Re: Adjustment to free time for Breakbulk Steel

In an attempt to maintain cargo flow and improve terminal fluidity, we are making some changes to the free storage time at Fraser Surrey Docks.

Effective February 15, 2015 and until further notice, the storage parameters for Breakbulk Steel arriving by vessel will be adjusted as follows:

- 1) Inbound Breakbulk Steel cargo requiring **outside** storage =
Up to 14 calendar days free storage after vessel departure

- 2) Inbound Breakbulk Steel cargo requiring **inside** storage =
Up to 7 calendar days free storage after vessel departure

We appreciate your support as we make this adjustment and continue to serve the Breakbulk Steel Import market in Western Canada.

We recommend that all our customers have a careful review of our Tariff which contains General Terms and Conditions and Limits of Liability which all users of Fraser Surrey Docks should be aware of. Our Tariff is available on our web site at www.fsd.bc.ca or you may call 604-582-2268 and request a copy.

Thank you for your continued support.

Sincerely,

Mike McLeod
Senior Manager, Sales & Marketing
